Dear Sir:

Although the Examiner states, in part, in the Reasons for Allowance: "The prior art such as Sowman (US 3,795,524) teaches that composite wires may be formed from metal matrices containing substantially continuous, longitudinally positioned ceramic oxide fibers", Applicants do not agree, for example, that Sowman (US 3,795,524) clearly teaches composite wires.

It is believed that no fee is due; however, in the event a fee is required, please charge the fee to Deposit Account No. 13-3723.

Respectfully submitted,
